Professional Summary

Data Science graduate of Jomo Kenyatta University of Agriculture and Technology (JKUAT) seeking remote AI training roles in response evaluation, data annotation, prompt writing, and fact-checking. Understands how machine learning models are built and measured, which helps in judging AI outputs for accuracy, clarity, helpfulness, and safety against detailed rubrics. Strong written English, fluent Kiswahili, and a guideline-first approach to quality, data confidentiality, and deadlines.

Core Skills

- **AI Training and Evaluation:** AI response evaluation and ranking, rubric-based scoring, preference feedback (RLHF-style), prompt writing, fact-checking, data annotation and labeling, content moderation, quality assurance, error and edge-case identification
- **Data Science:** Python (pandas, NumPy, scikit-learn), SQL, statistics, data cleaning, data visualization, machine learning fundamentals, model evaluation
- **Tools:** Microsoft Excel, Google Sheets, Jupyter Notebook, Git and GitHub, generative AI assistants for research and drafting
- **Languages:** English (professional), Kiswahili (fluent)
- **Professional:** Attention to detail, critical thinking, guideline adherence, confidentiality, time management, clear written communication, remote self-management

Projects

Data Science Academic Projects — JKUAT, Kenya (2019 – 2022)

- Cleaned, analyzed, and visualized datasets with Python and SQL to answer defined research questions
- Built and evaluated machine learning models for regression and classification, measuring results with accuracy, precision, and recall
- Wrote clear reports explaining methods and findings to non-technical readers
- Followed detailed project specifications and met strict deadlines across multiple units at once

Education

Bachelor of Science in Data Science

Jomo Kenyatta University of Agriculture and Technology (JKUAT), Kenya — 2019 – 2022

Relevant coursework: Statistics and Probability, Machine Learning, Database Systems, Python Programming, Data Visualization, Data Mining

Additional Information

- **Target roles:** AI Trainer, Data Annotator, AI Response Evaluator, Prompt Writer, LLM Quality Reviewer, Data Quality Analyst
- **Availability:** Remote contract and freelance work, East Africa Time (UTC+3)
